

DIAGNOSIS Project

2017-1-ES01-KA203-038254

E1 Multiplier Event. Diagnosis Final Conference

18th October 2019
London South Bank University
United Kingdom

The aim of the Conference is to present, share and disseminate the main results of the Diagnosis Project to relevant stakeholders, universities, private companies of the sector, professional associations, trade unions and local and international public institutions, organizations and media. With it, we will inform the building and construction sector and professionals about innovations produced by the project, to be implemented in the next years, in order to improve the quality of the rehabilitation projects.

The participants will know about a new professional qualification profile of an expert on buildings diagnosis. The syllabus and methodologies designed for the training of the Diagnosis experts will be presented as result of an extensive research activity carried out by the partners of the Diagnosis project.

With the collaboration of the London South Bank University
